Allowable Subject Matter

Claims 1-13 are allowed.

The following is a statement of reasons for the indication of allowable subject matter:
With respect to claim 1, though the prior art discloses a color sheet having a light-shielding effect, comprising at least a reflecting layer made of a polyvinyl chloride type resin with at least one material selected from the group consisting of glass beads, hollow glass balloons, and microcapsules and a color layer where the color layer is exposed to light from the reflecting layer, the reflecting layer having a solar-radiation reflectance of 60% or more in a wavelength

Art Unit: 2872

range of 780 nm to 1350 nm, the color layer having a light transmittance of 30% or more in a wavelength range of 780 nm to 1350 nm and a solar-radiation absorbance of 10 to 80% in a wavelength range of 380 nm to 780 nm, the prior art of record fails to teach or suggest the aforementioned combination further comprising the reflecting layer compounded with a titanium oxide-type white pigment and a hue of the reflecting layer being white or ivory.

With respect to claims 2-13, these claims depend on claim 1 and are allowable at least for the reasons stated supra.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
